

## Meeting Agenda

Date: 2014-04-03

Facilitator:  
Erik Risfelt

Participants:  
Markus Bergland  
Pierre Krafft  
Jacob Turesson

### 1. Objectives (5 min)

Define a testing best practices.  
Start work on GUI.  
Start work on controllers.

### 2. Reports (15 min) From previous meetings, (un)solved issues, etc.

Best testing practices? We can now use Hamcrest CoreMatchers and should use assertThat from JUnit.

### 3. Discussion items (35 min)

(a) How do we do...?  
How do we test better?

(b) What to do...?

### 4. Outcomes and assignments (5 min)

(a) Erik should....  
Keep code clean.  
Work with Markus on controller.

(b) Markus should...  
Be responsible for the work on the controller until next meeting.

(c) Pierre should...  
Work on utility classes and how to pick files in the application.

(d) Jacob should...  
Find out how LibGDX works and try to build something that looks like something along the direction we have in mind for the final GUI.

5. Next meeting?  
2014-04-09
